

# Times Table Homework

One of our Numeracy goals is to learn our addition and subtraction facts to 20 and then the multiplication/division facts.

We need to be able to recall these quickly, to show that we know the answer and are not using a strategy to work them out.

**This can be done by learning them everyday!!!**

1. Chant them. (Add claps if it helps)

2. Make Flash cards.

3. Make a poster to put on the wall, fridge or some place where it can be seen and practice regularly.

4. Go on websites like:

[www.mathsisfun.com/timestable.html](http://www.mathsisfun.com/timestable.html)

[www.multiplication.com/](http://www.multiplication.com/)

[www.bbc.co.uk/skillswise/numbers/wholenumbers/multiplication/timestables/game.shtml](http://www.bbc.co.uk/skillswise/numbers/wholenumbers/multiplication/timestables/game.shtml)

5. Write them out over and over again.

6. Write the family for facts for each one.

7. Get tested by someone.

8. Play Live Mathletics

9. Make up a game.

10. Look Cover Check!

You may have some other ideas so go for it!

**You Can Do It!!!**
